

## WHAT PIGS EAT

Animals, including people, need air, water, food, and shelter in order to grow healthy and strong. Create a layered book like the one in the picture and use it while you are watching the video.

Think about it... what do pigs eat and drink? What do you eat and drink? Where do pigs live? Where do you live? Who takes care of pigs so that they are healthy? Who takes care of you so that you are healthy?

Pigs do not eat junk food or 'slop!' Do you eat junk food?

Pigs eat soybeans and corn to get protein. What do you eat to get protein?

Pigs need food energy so that they can grow and run around. Why do you need food energy?
